COMICCRAFT

Project Demonstration Phase

AI Comic Story Creator – Project Phase Documentation

This document contains 10 pages covering the selected project phase.

1. Demonstration Introduction

• The demonstration phase presents the completed ComicCraft project to an evaluator or audience.

• The presentation should explain both the purpose and the working process.

5. Live Workflow

• Enter a simple topic.

• Generate the outline and story.

• Generate or display panel visuals.

• Show the completed comic output.

Project	ComicCraft – AI Comic Story Creator

8. Project Benefits

• ComicCraft demonstrates practical use of generative AI, software development, API design, file handling, and creative content generation.

• It can also serve as a foundation for future improvements.
